EXPERIENCE

Chingu Voyage

Sep, 2025 – Oct, 2025

Frontend Web Developer ([Github Repo](#))

Remote

- Shipped features reliably in a remote Agile team using GitHub-based workflows
- Built responsive, production-grade Homepage UI from Figma designs with clean, scalable frontend architecture
- Developed dynamic PR pages (Open/Closed) with efficient state and data handling

Elevvo Pathways

July, 2025 – August, 2025

Frontend Web Developer – Intern ([Github Repo](#))

Remote

- Completed a 1-month frontend internship, building 4 real-world projects across modern web technologies (e.g., React, Next.js, TailwindCSS)
- Developed functional applications demonstrating solid UI implementation and problem-solving skills

Tech Sisters

Oct 2025 – Dec. 2025

Social Media Coordinator

Remote

- Planned, drafted, and published LinkedIn content aligned with brand voice and messaging
- Operated independently, proactively clarifying requirements and managing end-to-end content workflow to ensure consistent, timely execution.

PROJECTS

AI Web App – Flavor Fusion

[Live Link](#) | [Github Repo](#)

- Built a full-stack AI recipe generator using Next.js, generating recipes from user-provided ingredients or dish names
- Implemented Google authentication, user-specific favorites, and CRUD operations with MongoDB
- Integrated AI and image APIs with a responsive UI for dynamic recipe generation and management

Space Tourism Website

[Live Link](#) | [Github Repo](#)

- Built a multi-page, responsive and accessible Space Tourism website following modern UI/UX best practices
- Translated Figma designs into pixel-perfect React components with mobile-first layouts using Tailwind CSS, ensuring smooth navigation and user experience

EDUCATION

University of the Poeples

Mar 2028

Bachelor of Computer Science

Harvard CS50x

Sep. 2025 – Dec 2025

Harvard's Introduction to Computer Science

- Built a solid foundation in data structures, algorithms, debugging, and core computer science principles
- Applied programming skills in C, Python, SQL, and JavaScript through structured academic and personal projects
- Built strong problem-solving skills and understanding of full web development (frontend, backend, data handling)

SKILLS

Languages / Technologies : JavaScript (React.js, Next.js, Node.js), Python (Flask), HTML, CSS (Tailwind CSS, Bootstrap, ShadCN), SQL (MySQL), MongoDB, REST APIs

Tools : Git, GitHub, Vercel, Figma, Notion, WordPress, Elementor
